WARNING: TO OWNERS OF PROJECTION TELEVISIONS

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the cathode ray tube. Avoid repeated or extended use of video games on large-screen projection televisions.

EPILEPSY WARNING

Please read before using this game or allowing your children to use it.

Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life. Such people may have a seizure while watching television images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had any epileptic seizures. If you or anyone in your family has ever had symptoms related to epilepsy (seizures or loss of consciousness) when exposed to flashing lights, consult your doctor prior to playing.

We advise that parents should monitor the use of video games by their children. If you or your child experience any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, while playing a video game, discontinue use IMMEDIATELY and consult your doctor.

PRECAUTIONS TO TAKE DURING USE

- Do not stand too close to the screen. Sit a good distance away from the screen, as far away as the length of the cable allows.
- Preferably play the game on a small screen.
- Avoid playing if you are tired or have not had much sleep.
- Make sure that the room in which you are playing is well lit.
- Rest for at least 10 to 15 minutes per hour while playing a video game.

System Requirements

It is essential that your PC meets the Minimum Requirements as detailed on the game's packaging. If you are experiencing poor performance, check to make sure your system hardware supports those requirements and that your video/sound card drivers are up-to-date (see *Troubleshooting* on p.10).

Note: Video card chipsets in laptop systems may work with this game but **are not supported by Electronic Arts**.

Installing/Uninstalling the Game

To install the game, insert the disc into your disc drive and wait for the AutoRun menu to appear. Click INSTALL and then click NEXT; the serial number window appears. Type in the serial number found in the white box on the back of the game manual and follow the on-screen instructions to install the game.

Note: If the AutoRun menu does not automatically appear, double-click the **My Computer** icon on the Desktop, then double-click on the disc drive in which the game disc is inserted. Double-click on the 'setup.exe' file to install the game.

If you are having problems or the game did not install correctly the first time, we recommend uninstalling and re-installing the game. To uninstall the game, click the Windows START button, select **Programs** (or **All Programs**), find the game's parent folder (usually **EA GAMES** or **EA SPORTS**), locate the game and click **Uninstall** to remove it.

Game Modes

Earn your place in the racing world via a variety of game options, from one-shot Quick Races to an in-depth Career mode.

Note: For latest community events, gameplay hints and tips, visit **needforspeed.ea.com**

CAREER MODE

Your bounty and rap sheet are closely monitored by the police to determine who makes the Blacklist and who is the Most Wanted. Think you are the best driver? The road starts here.

- To start a game in Career mode, select CAREER in the Main menu then either RESUME CAREER, START NEW CAREER or LOAD an existing alias.

FREE ROAM

The best spots to race in the city and its surroundings are begging to be discovered. Drive around to get a feel for the lay of the land and as you cruise the world, test out some juicy stretches of road. Just remember to keep your eyes and ears peeled for news on the daytime racing scene and watch out for the cops. They'll stop at nothing to keep the racers off the street.

- To explore, select RESUME FREE ROAM in the Safe House menu.

THE BLACKLIST 15

The Blacklist represents the fifteen street racers who are most wanted by the police. Beat every one of them and you'll become the Most Wanted. You'll need to challenge and beat every one of them using your driving skills. To do this, complete a series of events and challenges to prove your mettle and become notorious.

- To view the Blacklist, select BLACKLIST 15 in the Safe House menu.

EVENTS, MILESTONE COMPETITIONS AND CHALLENGES

You'll have to earn your right to see your name on the Blacklist 15. To do this, you'll need to win races, complete pursuit milestones and evade pursuits. If you're good enough, you may find yourself challenged to a showdown with one of the Blacklist racers. Beat them and you'll score their spot on the list.

- To jump to events, select BLACKLIST 15 in the Safe House menu or press **B** when you are in a Free Roam. Select RACES or MILESTONES and click an event you wish to enter.

COP PURSUIT AND BOUNTY

In the 'anything-goes' world of street racing, the cops can be anywhere and like you, they've got a few tricks up their sleeves. Eluding them requires a cool head and a little bit of fancy pedal work.

Keep your eye on the Heat Meter, which surrounds your minimap. It's not just your rival racers you have to worry about. As your heat increases from 1 to 5, the chase gets tougher and the cops get harder to beat. If your driving style is particularly attention-grabbing, you may find yourself being pursued by state or even federal authorities. As the chase escalates, so does the quality of gear the police use to try to take you down. Those tiny roadblocks set-up by the small-time fuzz may be a cinch for you to bypass, but try getting away from that FBI chopper or heavy SUV's. It's not just your rival racers you have to worry about. If you successfully evade the cops, the police will increase your bounty and bump you up their Blacklist. Get busted, however and it will cost you.

***EA* Tip**: There are hiding spots all over the open world where you can lay low until the heat is off. When you're in cooldown (meaning you broke line of sight with the pursuing cops), hiding spots appear in your minimap. Pull into one to speed up the cooldown period.

Note: While in a police pursuit, you are unable to enter any locations or races.

RAP SHEET

Ever wonder what the cops think about when they hear your license plate number over the radio? View your rap sheet to find out. Your rap sheet offers the police your pursuit statistics, the number of infractions on your record and the total amount of dollars your antics have cost the state.

- To view your rap sheet, select RAP SHEET in the Safe House menu.

Note: The Rap Sheet is not accessible until it is unlocked in the career mode.

QUICK RACE MODE

Enter a variety of one-off races. Choose between a QUICK PLAY race and a CUSTOM RACE or race a friend in LAN mode.

QUICK PLAY

Jump right into the driver's seat in a Quick Play race. In Quick Play, the event type, track and car you drive are all picked for you. All you need to do is show up and be ready to throw down. You could get lucky and get a car that has not yet been unlocked in Career mode.

To start a Quick Play game:

1. Select QUICK RACE in the Main menu.
2. Choose QUICK PLAY.
3. A screen appears showing the race type, track and car you'll be driving. To select a new configuration at random, click RANDOMISE.
4. Click ACCEPT to confirm. The race begins.

CUSTOM RACE

Like a Quick Play race, a Custom Race drops you right into the action, only here you get to select which available race, track and car you wish to drive.

To start a Quick Race:

1. Select QUICK RACE in the Main menu.
2. Select CUSTOM RACE.
3. Choose between a CIRCUIT, SPRINT, DRAG, LAP KNOCKOUT or SPEEDTRAP race.
4. Select a location for your race.
5. Adjust the race options, including the difficulty level.
6. Select the car you want to drive.
7. Select whether you want to drive with **AUTOMATIC** or MANUAL transmission. The race begins.

CHALLENGE SERIES

The Challenge Series hooks you up with a car, a specific challenge and is designed to test your driving and pursuit evasion abilities. The further you get into the challenge series the harder things get. Do you have what it takes to beat them all?

- To start the Challenge Series, select CHALLENGE SERIES in the Main menu.

RACE TYPES

Circuit	A traditional lap-style course. Finish first and leave your competitors driving in circles.
Drag	A pedal-mashing, speed-shifting race to the finish line.
Lap Knockout	Race laps around a track. At the end of each lap the driver in last place is eliminated. The driver in first place at the end of the last lap wins.
Speedtrap Race	There are speed traps posted all over the city. Blow through each as fast as possible. Earn the highest cumulative score and you're the winner.
Sprint	Find out how fast you can get from point A to point B.
Tollbooth	Smack your way through as many Tollbooth checkpoints as you can. As the race progresses, the allotted time you have to hit the next checkpoint decreases. If you hit a checkpoint with time to spare, you get a bonus.

Customisation

Cold hard cash is the currency of choice on the street. With it you can outfit your ride with a variety of aftermarket parts you'll find in the shops. To earn money, enter and win one of the daytime racing events happening around town.

As your reputation increases you get the chance to go up against key opponents in order to earn markers. Markers allow you to unlock special visual and performance upgrades in the shop's back room, reserved for only the best racers. If you go up against a member of the Blacklist 15 and win, the marker you earn may even be a pink slip redeemable for your opponent's ride. Not bad for a day's work.

There are one-stop shops all over where you can do everything from customising your engine to adding the latest paints and decals. The trick is finding them.

Note: When you upgrade your ride, your old parts are automatically traded in.

LAN

With a LAN connection you can challenge your friends to see who is the most notorious street racer.

- To join a LAN server, select LAN in the Main menu. A list of hosted games appear. Click the name of the game you wish to join.
- To host a LAN server, select LAN in the Main menu, then click CREATE SERVER. Follow the on-screen instructions to begin gameplay.

Performance Tips

SYSTEM REQUIREMENTS

It is essential that your PC meets the Minimum Requirements as detailed on the game's packaging. If you are experiencing poor performance, check to make sure your system hardware supports the requirements.

BACKGROUND TASKS

In some cases programs that are running on your system can monopolise resources that the game needs in order to install, load and run properly. Not all of these programs are immediately visible. There are a number of programs, called "background tasks," that are always running on your system.

> **Important Note:** While shutting down background tasks will optimise your system for running *Need for Speed™ Most Wanted;* these background tasks' features will be unavailable once shut down. Be sure to re-enable background tasks after playing *Need for Speed™ Most Wanted* by restarting your computer.

If your system is running anti-virus or crash guard programs you will need to close or disable them to run *Need for Speed™ Most Wanted*. To do this, find the icon for the program on the Windows Taskbar and then right-click the icon and select "close", "disable", or the relevant option. Please note that these programs will be reactivated the next time you restart your computer.

Once anti-virus and crash guard programs have been disabled, you should end all unnecessary general background tasks.

To view and close background tasks (Windows XP):

1. Hold down **CTRL** and **ALT** and then tap **DEL**. Select the Windows Task Manager.
2. Click the **Processes** tab. This tab displays a list of all background tasks running on your system.
3. Click the **User Name** column heading. This sorts all the processes together by user name.
4. Select an item with a user name, but DO NOT select one from the SYSTEM, LOCAL SERVICE or NETWORK SERVICE groups. Also, DO NOT select the *explorer.exe* or *taskmgr.exe* items.
5. Click END PROCESS. You may receive a warning message, if so click YES. The selected item disappears from the list.
6. Repeat steps 4 and 5 until only *explorer.exe* and *taskmgr.exe* remain in the user name group.

TROUBLESHOOTING

VIDEO & SOUND CARD DRIVERS

An outdated video or sound card driver can lead to slow and choppy gameplay or in some cases can prevent the game from running entirely. To ensure an enjoyable experience with your game, make sure that you have the most recent video and sound card drivers installed. These drivers are typically available for download from your system or hardware manufacturer's website. If you are not sure what type of video or sound card you have or you do not know how to update the drivers on your system, please refer to the documentation that came with your system or peripheral. For further assistance, refer to the *Update Your Video/Sound Driver* sections in the Technical Support file on the game disc. (See *Customer Support – Here To Help You!* on p. 12.)

PROBLEMS INSTALLING THE GAME/DETECTING THE DISC

This game contains technology intended to prevent copying that may conflict with some CD-RW, DVD-ROM and DVD-RW disc drives. If the game does not install correctly or if your disc drive cannot detect the disc you may need to update the firmware for your disc drive. These updates are typically available for download from your system or hardware manufacturer's website. If you are not sure what type of disc drive you have or you do not know how to update the firmware, please refer to the documentation that came with your system or disc drive.

Warning: Electronic Arts recommends that Firmware updates are carried out by an experienced PC user as improper installation can damage your disc drive. If you are unsure about upgrading the firmware, please contact your system or drive manufacturer for further assistance.

BACKGROUND APPLICATIONS & ANTI-VIRUS SOFTWARE

To achieve optimum performance when running this game we recommend that you end all unnecessary background applications prior to playing. In some cases closing down background applications can help solve any crash or lockup issues. For further assistance, refer to the *Ending Background Tasks* section in the Technical Support file on the game disc.

If your system is running anti-virus software you are advised to close or disable it before running this game. To do this, find the icon for the Anti-Virus software in your Windows System Tray. **Right-click** the icon and select CLOSE, DISABLE or the relevant option.

INTERNET PERFORMANCE ISSUES

To avoid poor performance during Internet play, ensure that you close any file sharing, streaming audio or chat programs prior to entering gameplay. These applications can monopolise your connection's bandwidth, causing lag or other undesirable effects.

Please consult your router or personal firewall documentation for information on how to allow game-related traffic on the following TCP and UDP ports. If you are attempting to play on a corporate Internet connection, contact your network administrator.

This game uses the following port information for Internet play:

TCP: 80, 13505, 30900-30999

UDP: 3659

Electronic Arts excludes any warranty in relation to the Product if it is bought second hand and the consumer is not the first end user of the Product.

CUSTOMER SUPPORT – HERE TO HELP YOU!

Your game includes a Technical Support file to help solve any problems you may be having. It provides solutions to the most common difficulties that can arise when installing or playing the game. If you have already installed the game, click the Windows START button and locate the game through **Programs>** (or **All Programs>**) **EA GAMES>** (or **EA SPORTS>**).The Technical Support file is located in the same folder as your game. Please check this file first for solutions before contacting EA Customer Support.
If you have yet to install the game, follow the instructions below:

To run the Technical Support file (without game installed):

1. Insert the game disc into your disc drive.
2. Click START and select **Run...**.
3. In the Run dialog box, type **D:\Support\European Help Files\EA_Help_Select.htm** then click OK (substitute the correct letter of your disc drive if other than '**D:**').

To see if you are meeting the minimum requirements as displayed on the game's packaging, a utility called **dxdiag** detects your system's hardware and organises this information into a detailed report. This report will also assist EA Customer Support in solving your problem more rapidly.

To obtain your system information:

1. Click START, select Run... and type dxdiag in the Run dialog box and then click OK.
2. Click SAVE ALL INFORMATION... to save a copy of the report for viewing and printing. Please ensure you have this report available when contacting EA Technical Support.

If you are still having trouble installing or running your game, visit **electronicarts.co.uk** or **electronicarts.ie** and click SUPPORT CENTRE. Once at the Support Centre, click GET HELP to view our knowledge base. The solutions you will find here are the same as those used by our Customer Support staff, so you can guarantee they are accurate and up-to-date. To ensure you find the answer to your question, choose the format, game type and title carefully. If you cannot find an answer, click ASK EA to contact a Customer Support Technician, who will answer you as soon as possible.

If you do not have Internet access or would prefer to speak to a technician, telephone our Customer Support team (9am-9pm, Monday-Friday).

Telephone: **0870 2432435** Fax: **0870 2413231**

> **Note:** These are UK National Call rate numbers charged at BT's standard national call rates for calls from a BT line in the UK. Consult your telephone service provider for further information. Calls from outside the UK will be charged at International rates.

Due to the nature of most problems encountered when running PC games, it is easier – and usually quicker – to diagnose them using our online Support Centre. Customer Support cannot provide gameplay hints or tips – if you are stuck, see the back of this manual for details of our official Hintline.
